

Product technical information

Tungsten trioxide WOMBPP65

Typical applications

- Phosphors
- Electrochromic devices
- Photocatalysts
- Gas sensors
- Yellow ink

Key properties

Mean particle size/nm: 60

Size distribution: lognormal

FWHM/nm: 20

Structure: monoclinic (room temperature)

Shape: spheroidal

Purity: 99.99% WO₃

Delivery

- Agglomerated powder: product code WOMBAP65
- Aqueous slurry 10% ^w/w: product code WOMBSP65
